Salisbury Garden Club Continues Daffodil Tradition

The Salisbury Garden Club, 10 years ago initiated a “Daffodil Project” to celebrated their 40th Anniversary as a Garden Club. At the time, they planted 4000 bulbs (40 for each member, membership at that time was 100).

They planted daffodils at 5 sites at Church of the Redeemer, Midlothian Post Office, Life Long Learning Institute and Suburban Mobile Village.

The selection of the Daffodil varieties depended on the area. For distance viewing, Ice Follies, Carlton and Dutch Masters were chosen. For more intimate areas, Thalia and Jetfire were selected. At the Post Office, Tahiti and Dutch Masters along with Orange Tulips were planted.

For their 50th Anniversary, they established an Anniversary Garden at the Church of the Redeemer which also included Daffodils.

Each Spring, the Salisbury Garden Club which still has 100 members maintains these areas.
